Contempo Screen - Front view

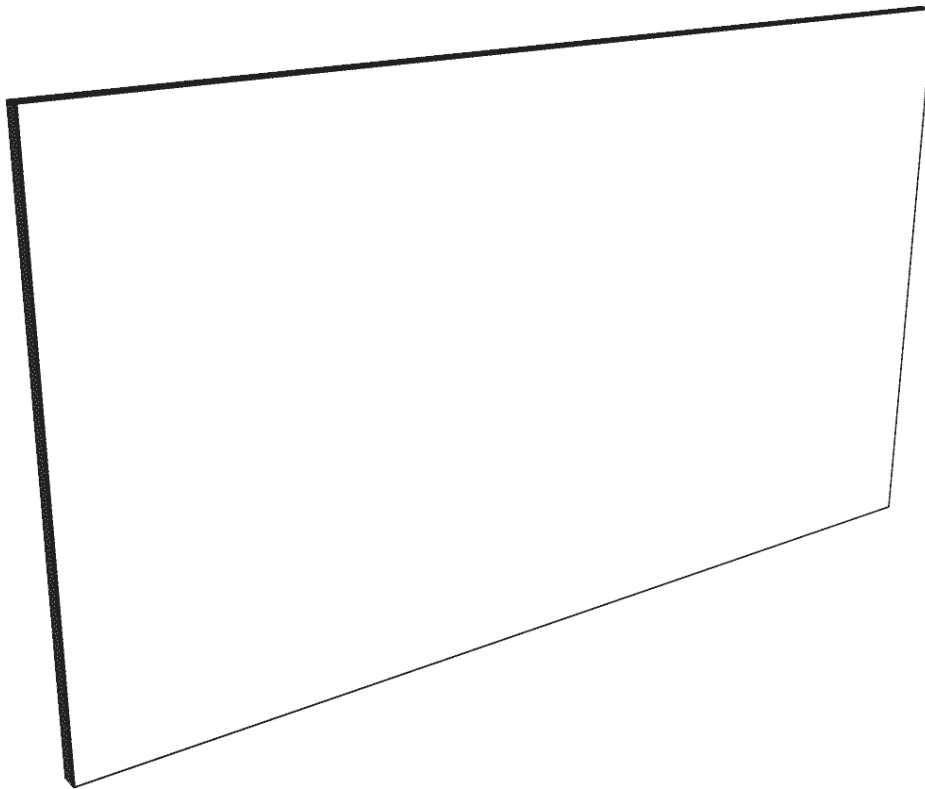

## CONTEMPO [DT-CNTP] - ON WALL PROJECTOR SCREEN WITH FIXED MICRO BEZEL SURROUND

The DT Screens Contempo is an on wall projector screen with fixed micro bezel surround featuring simple install mounting system, front loading image surfaces and custom colour options.

**The Contempo supports the simple install mounting system** where all mounting points are located through the frame itself. The first point locates the install height of screen whilst the second sets the rotation angle of the screen. Simple, fast and reliable.

**DT Screens image surfaces** are loaded from the front side of the screen after the screen frame has been securely mounted to the wall. This is the safest and fastest way to install an image surface and results in the exceptional flatness our mounted image surfaces deliver.

**The micro bezel aluminium frame** comes as standard in black powder coat finish but is available in any RAL colour. This enables the Contempo to blend seamlessly into any decor.

Example Drawing of Contempo

**DT Screens is a division of Display Technologies,** a British company specialising in advanced projector screens, mounting brackets and custom installation solutions. Our focus on the combination of technical performance and design for install, ensure that all DT Screens meet the needs of both the client and the installer.

**MADE IN  
BRITAIN**
