

IMAGE SURFACE DATASHEET

ImageRef

PERFORMANCE DATA

Image Reference from DT Screens has been created to offer the highest possible image fidelity.

Image Reference is a unique PVC formulation delivering exceptional uniformity and outstandingly consistent spectral response.

ImageRef is a near perfect Lambertian diffuser delivering exceptional uniformity across the image regardless of viewing angle or position of the projector. Along with the very large maximum size this makes ImageRef ideal for advanced commercial applications as well as high performance home cinema.

ImageRef has been carefully engineered to deliver the highest possible image performance with full compatibility with latest video standards such as 4K resolution and Rec2020 colour space.

KEY DATA

Material Type:	Front Projection
Maximum Size:	Unlimited Invisible Seaming
Peak Gain:	0.99
Half Gain:	Lambertian Diffuser
Minimum Throw Distance:	No Minimum
Edge Blending Properties:	Excellent
